I. Council Motions

J. Other Business and Notice of Motions

K. Discussion Period

Executive Vacation Policy
Does the current Executive Vacation Policy need to be reviewed?
Leave of more than 4 weeks is considered a leave of absence, without pay, and it is suggested that in these cases, someone be appointed in the interim.
It was asked whether everyone could take vacation at the same time?, to which the response was, ‘Technically, yes.’
It is suggested that a new Executive Vacation Policy would include 4 weeks in total, 2 at the winter break, and 2 weeks in the remainder of the year.
The current policy is a total of 6 weeks executive vacation; 4 weeks, and an additional 2 weeks over the winter break.
It was asked, ‘Why impose limitations instead of modifying policy so that executive cannot be on leave on at the same time?’ It was answered that this is difficult to write into code.
It was asked whether this been a problem in the past?, to which the response was ‘No’.
It was stated that long periods of leave affect efficiency.

Exterior Patio Lights, Koerner’s Pub
Sufficient lighting is needed on the patio of Koerner’s Pub for safety. The maintenance budget has already been spent so it is suggested the GSS draw from CPIF to fund this. House-Finance have approved up to $2,800 for this project. UBC is a dark campus and there are safety concerns; the sooner more lighting is provided, the better. The exterior patio lights were damaged during the pub renovation however it is difficult to prove who is at fault so we cannot invoice Koerner’s Pub for this.

It was asked how much is in CPIF, to which the response was approximately $120,000, not all of which is reserved for other projects.

Amend the agenda to include a motion relating to the external lighting.

**MOVER:** Chris Roach, **SECONDER:** Jack Hickmott
