  - It was asked why the increase to the Distance Education Exam fee was so high to which the response was these exams require a room booking and staffing so the cost is significantly higher.

**GSS Business Plan** – Tobias Friedel

**Discussion:**

The proposed Business plan will reduce the costs incurred by current graduate students when making a room booking. The plan also includes renovations and upgrades to increase use of the building.

There will be a trial period of three months, with a possible three month extension.

It was asked ‘What would be the cost of renovations? Where would the funding for this come from?’

It was suggested that renovations may result in increased revenue from commercial bookings, which in turn will cover these deductions in costs to graduate students.

There will be motion at next month’s Council meeting to approve the plan – after Councillors have had an opportunity to read the detailed proposal.
Motion to recess for 15 minutes

Discussion:
It was asked ‘What actions have been taken to make this event accessible to non-Chinese students?’ to which the response was; There are a variety of performances to appeal to a diverse audience, there is also a uniform price for members, non-members, graduate and undergraduate students.

It was asked how graduate students will be encouraged to attend the event and / or become involved to which the reply was that there will be graduate performers, organizers and audience members.

It was stated that the SEF is underutilized as demonstrated earlier in the meeting and we should encourage the use of it for events such as this one.

This is a large and multicultural event and meets the SEF criteria.

It was asked how many members of CSSA are graduates?, to which the response was 35 per cent.

It was asked and answered that the expected attendance will be 300 volunteers and audience members.

It was asked how CSSA will track who attends, i.e. how many graduates, which was answered that this could be done at the point of sale.

Motion to amend the agenda

27/1/4
PASSES

Discussion:
It was asked whether it is common / acceptable practice for the GSS to endorse candidates? To which the response was, it is a show of support for fellow graduate students.

It was stated that it can be a risk to endorse candidates, should a candidate embarrass the society at a later point.

It was stated that the GSS can make recommendations.

It was brought to Council’s attention that s Position Statement, resolved by special resolution, needs to be posted at least 7 days prior (13.2.1).

13.2.3 May waive the requirement of notice by reaching a special resolution vote.

It was stated that graduate students are under-represented; therefore we should be in support of greater student representation.

The GSS should be in support of all graduate students running in this election.
GSS Council Meeting Agenda
Thursday January 16, 2014
GSS Ballroom

It was asked ‘Are there enough seats for all three candidates? Are we endorsing more people than there are positions for?’ to which the reply was, ‘There are 2 seats on the Board of Governors’. There is a need to have graduate students at decision making bodies like the Board of Governors so that they can advocate for graduate students. There is also a need to have a graduate student specific seat.

8. Policy Amendments

BIRT Council approves the proposed amendments to sections 1 and 2 of the policy manual as presented.

BIFRT these changes do not take effect until September 1st 2014.

MOVER: Julienne Jagdeo SECONDER: Pooya Hosseini

Discussion:
It was asked whether the current committee members are committed to the timeline in terms of how long it will take to review the entire code? To which the response ‘This time frame can be changed at any point’. The rationale behind this approach is that changes are presented in sections rather than overwhelming Councillors with all the changes at once. Policy is continuously changing. In the past, the Policy Manual was not updated as changes were made and this process is to ensure that all updates are reflected in the new version. If we vote upon this, it will not be voted on again.

9. Health and Dental Plan

BIRT the GSS Council approves the Pacific Blue Cross Health and Dental Plan as presented;

MOVER: Colúm Connolly, SECONDER: Matt Sacheli

Discussion:
There have been some small changes for smaller items. Pharmaceutical coverage is better in this plan than in the previous plan. It was asked, ‘Why is the focus on academic performance specifically, as opposed to student wellbeing?’ To which the reply was that this can be amended.
