  - Umbrella Sharing Program;
- AGM was held on October 21st; discussed tuition increases. GSS members were very active. AMS created forum for discussion: ams.ubc.ca/tuitionincrease; Dec 3rd up for vote at BOGS.

- Graduate Council – Natalie Marshall [written report]
  - At Grad Council, we discussed an interesting new pilot program called the “Public Scholars Initiative,” which aims to learn how to best customize PhD dissertations to better prepare UBC PhD graduates for careers beyond academia.
  - Grad Council is also beginning to survey graduates, between 1-11 years out from graduation to track career outcomes, etc. If you have suggestions about the types of questions that would be valuable in this survey, please contact Natalie.
  - Admissions to UBC graduate programs is being streamlined so that (generally) you can now submit unofficial versions of your documents (e.g. undergrad transcripts), and also electronically, for a ‘conditional acceptance,’ saving you money and time when applying for grad school.
  - Policies on graduate student leaves of absence have been reworded to increase flexibility for students; now it is clear that you can take a leave of absence to (e.g.) take a job unrelated to your field to help with finances. They also defined which UBC services you can or cannot still use while on leave (e.g. Library access–yes; childcare–yes; housing–generally yes; UPass–no; Extended health and dental–opt-in).
  - Finally, Grad Council highlighted the value of building an “Individual Development Plan” (or “IDP”) to plan careers and graduate study timelines using online, interactive tools. These are customized to each user to help you improve your skills to meet your long-term goals. IDPs are more common in the sciences and there are discussions to bring them over to the humanities, as well.

- Senate – Sarah Simon and Nick Dawson
  Senate met last night and while most things were routine approvals (awards, etc), a couple things pertained to us. Firstly, in response to the findings from Lynn Smith regarding the University’s failure to protect the academic freedoms of Prof. Berdahl, the University is creating initiatives to safeguard academic freedoms on campus.

  - A new staff member will be hired and their purpose will be to ensure that academic freedoms are safeguarded at UBC.
  - The University will create an education program focusing on what academic freedom is, how it must be protected and how to handle matters related to academic freedom. This program will be aimed at all new faculty members, directors and deans.
  - An online tool will be created to disseminate how to deal with academic issues and understand the concepts of academic freedom. This tool will be available to the public.
  - Finally, the University will develop a program that will be a mandatory course for all governors and senators to ensure they understand the concepts of academic freedom.

Secondly, a faculty member brought forward a motion that would have asked the President to approach the Board of Governors and Prof. Gupta and asked them to renegotiate their non-disclosure agreement so that more transparency could be provided. A number of faculty members spoke for and against the motion, but in the end, most senators voted against the motion and it failed.

Finally, the budget committee saw an update on international tuition hikes. After the typical 7.5% put away for international student aid, the majority of the remaining money will be set aside for “Strategic Investment”. What exactly this means is quite mirky and has not been decided. There are ongoing discussions and student consultations to help decide how this money will be allocated. As always, if there are any questions please do not hesitate to email either myself or Sarah at senator@gss.ubc.ca
Hello,
I’m very sorry to not be with everyone tonight, mostly because I’m in a room with 40 other grad students marking midterms right now.

Senate is a very slow body, however, with the recent drama of this summer there have been very interesting conversations about academic freedom. There are no current actions being made in regards to this concern, but it is at the forefront of the academics at this university.

There is also exciting movement for the mental health and wellbeing adhoc committee. The university has hired outside consultants. The consulting period is beginning with student senators and the student government executives. The consultants provided a presentation to senate yesterday evening and I believe the work they will be doing will have significant impact on the university. I will be attending the consultation and I will lobby for graduate students.

I don’t have much more to add and I hope whatever dinner you all have is delicious.
As always,
Sarah

Motion to include section Questions Period; allot 5 minutes.

MOVER: Tobias Friedel
SECONDER: Tal Shalev
MOTION PASSED by unanimous consent

H. Questions Period

It was asked who is assigned to hold consultations with C+CP on Library Garden Re-development project and if indigenous community is involved, to which the answer was that the committee had discussed the project in general, did not touch on specifics.

It was further noted that GSS will be contacting indigenous community members inviting them to join conversation about the development of the Dialogue Centre at the upcoming Council meetings.

It was further asked and answered that the conversation to renew agreement with the Pub has just started.

It was also asked about the groups that are in favour of tuition increase, to which the answer was that some professional programs like MBA or Law School are open to conditional agreements, i.e. secure money for particular cause and/or if it results in significant improvement for the program. If was further mentioned that this is an opportunity for students to provide feedback and voice different perspectives. There is GSS standing policy on tuition increases that international tuition shall be held the same as for domestic students.

I. Council Motions

9. Graduate Council Committee Appointments

Introduced by: Executive Committee

---

2 carried over from GSS Council, September 17th 2015, October 15th 2015;
BIRT committee appointments of the Graduate Council, i.e., Academic Policy Committee, Scholarships Committee, and Graduate Curriculum Committee are deferred to the Graduate Council Student Caucus.

**MOVER: John Dupuis**  
**SECONDER: Judy Booth**

*Motivation:* would make sense to defer appointments to Student Caucus. This has been the practice in the past.

**MOTION PASSED**  
25/1/3

10. **Dissolution of Building Lease Renewal ad hoc Committee**\(^3\)  
*Introduced by: Executive Committee*

WHEREAS the Building Lease Renewal ad hoc committee has been unable to reach quorum for several months, and
WHEREAS the first deadlines towards the lease renewal have passed, and
WHEREAS under the direction of the GSS Executive the General Manager has provided the necessary documents to UBC Treasury to adhere to the deadlines as laid out in the current lease agreement, therefore;
BIRT the Building Lease Renewal ad hoc committee be dissolved.
BIFRT the duties laid out in the terms of reference of the ad hoc committee be deferred to the Executive Committee in consultation with the House Committee.
BIFRT any progress towards lease renewal be included in the executive reports to Council.

**MOVER: Peter Cheng**  
**SECONDER: Christina Wiesmann**

*Motion* to amend to strike “Executive committee in consultation with”

**MOVER: Tobias Friedel**  
**SECONDER: Andrew Leyland**

*Motivation:* consulted with the House Finance Committee; felt it best to put House Finance upfront and Execs as consultants. Responsibility lies with the House Finance.

It was asked and answered that three Execs seat on the committee as ex-officio members.

**AMENDMENT PASSED**  
30/0/2

\(^{3}\) carried over from GSS Council, September 17\(^{th}\) 2015, October 15\(^{th}\) 2015;
It was noted that ad hoc committee never had enough members to meet quorum, so wasn't able to make any decisions. The only deadline set was to signal interest by the end of June/July. GSS has submitted a letter of intent to renew lease to the university. There were a few changes that are being suggested, i.e. pest control should be taken care of by UBC. University has also notified GSS that they would like to slightly change the wording. House Finance will be reviewing the changes.

It was further asked the reason why ad hoc committee was initially struck, to which the answer was that previous Executive team felt appropriate to form a separate committee just for this purpose with a low time commitment, and in order not to overburden existing committees.

It was also mentioned that anyone is invited to the committee meetings.

MOTION PASSED by unanimous consent

11. Policy Manual Section 5 Executive Officer Spending ⁴ Introduced by: Code and Policy Committee

WHEREAS policies regarding Executive Officer spending for the purposes of Society business were not within the current policy manual.

BIRT Council approves the addition of the proposed section titled “Executive Officer Spending” to the policy manual as presented in section 5.

BIFRT the position of the current section 5 and all subsequent sections of the policy manual shifts down one section number.

MOVER: Krish Maharaj  SECONDER: Patrick Lo

Motivation: this new section was created at the request of and in collaboration with the Executive Oversight Committee. The general purpose of this section is to make sure Executives are being reimbursed or not paying out of pocket for the necessary, but appropriate costs that arise due to Society business. We have outlined clearly areas that are eligible for reimbursement/payment by the Society such accommodation and transportation, as well as items that are not eligible as outlined in 5.8. Reimbursements will be subject to approval by the FEOO to help monitor appropriate spending of the Society’s money.

It was emphasized that there is no standing policy on Executive spending; also have seen some issues in the past like lost receipts, etc. The proposed policy is based on the staff reimbursement guidelines, policies adopted in other Universities: UFT, UVIC and U of C. GSS offers the lowest amount of reimbursement across Canada.

It was also mentioned that this policy will allow to eliminate financial inconsistencies and make Execs more accountable.

⁴ carried over from GSS Council, September 17th 2015, October 15th 2015;
It was further asked and answered that $60 per diem includes expenses for meals, coffee, medicine, etc. Non-essential or non-allowable expenses, i.e. liquor, etc. are not covered.

It was further noted that all charges to the budget lines will be reviewed by Financial and Executive Oversight Officer to monitor how money is spent.

It was further asked and answered that approved by Council annual budget includes all projected cost of conference expense attended by Execs (CASA, GU 15, UBCM, etc.)

It was further clarified that Policy Manual 5.3.2 refers to special circumstances: in case Execs do not have funds to travel and in order to remove financial burden due to their office, per diem may be provided in advance of departure. It was further stated that Execs will still have to justify all expenses and follow reimbursement guidelines.

MOTION PASSED
28/0/2

WHEREAS Section 48-19 contains policies regarding employee hiring for the Society;

WHEREAS Council recently adopted the GSS HR Handbook containing revised procedures on hiring employees for the Society, thus rendering the current Section 48 19 of the policy manual redundant;

BIRT Council approves the amendments made to Section 48 19 of the policy manual as presented.

BIFRT Council approves the addition of the GSS HR Handbook as Appendix VII of the policy manual.

MOVER: Logan MacDonald SECONDER: Andrew Leyland

Motivation: preparation of this document first started four years ago. AMS HR manual was used as a template that was later developed in many ways; very mature.

Motion to amend to change all mentions of section 18 to section 19 deemed friendly.
