

James Juma

Vice President External Relations

My name is James Juma,

I am running for Vice President External Relations of the Graduate Student Society. With a global perspective and multicultural leadership honed through experiences in Canada, the United States, Switzerland, Tanzania, and Kenya. I am committed to addressing the critical issues affecting graduate students, including Medical Services Plan coverage, immigration support, and fair wages. If elected, I will work closely with campus community organizations to amplify student concerns and collaborate with external stakeholders to drive meaningful policy change. Leveraging my bilingual proficiency in French and English, I will foster inclusive dialogue to ensure our voices resonate with a broad audience. Through strong partnerships and transparent communication, I aim to create a supportive environment where every graduate student can thrive.
